Device evolution
Started development of nanoe™ generation technology
1997
Started research on the theme of "Air Purification" in the living environment
nanoe™ unit prototype completed
Started effect verification
nanoe™ device completed
Water-supply type
1st generation
nanoe
Peltier type
2nd generation
3rd generation
Started development of next-generation technology "nanoe™ X"
4th generation
●Miniaturization ● Increased amount of OH radicals generated
Birth of nanoeX
Birth of nanoeX
Living spaces
Air-quality
The world's first nanoe™-equipped air purifier
Air purifier
Humidifier
Humidifying air purifier
Air conditioner
Humidifying ceramic fan heater
nanoe™ generator
Clothes drying dehumidifier
Fan
Futon dryer
Air conditioner
Humidifying air purifier
Air conditioner
Beauty
Hair dryer
Hair straightener (water-supply type)
Hair styler
Facial Steamer
Dining spaces
Top unit refrigerator
Food cabinet "Konsai-Keeper"
Kitchen dust box
Dishwasher dryer
Sanitary spaces
Bathroom ventilation dryer
Tilted drum type washer/dryer
Vertical washer/dryer
Room drying fan "Sentaku Biyori"
Deodorising hanger
Shoe deodoriser
Toilet spaces
"Arauno room Unos" (nanoe™ function panel)
Warm-water bidet toilet seat "Beauty toilette"
Auto cleaning tankless toilet "Arauno"
Home
Ceiling-embedded nanoe™ generator
Ventilation equipment "Kokyu no michi tower"
Home elevator
Entrance parts "Hybrid deodorisation unit"
Ceiling-embedded air purifier
Entrance storage "Cloak Box"
Moving spaces
Automotive
nanoe™ unit
First inclusion in Mazda MPV line
mazda
Expanded automotive adoption thereafter.
"Drive shower"
nanoe™ unit
First inclusion in Toyota Camry line
TOYOTA
Expanding sequential adoption thereafter in Toyota vehicles.
"Uru-Care veil light"
Car navigation
In-vehicle nanoe™ generator
Public transport
Seven Stars in Kyushu
Installed in passenger rooms in the JR Kyushu "Seven Stars in Kyushu" Cruise Train
Yamanote Line new railcars
Installed in new railcars on JR East's Yamanote Line
Iiyama Line "Oikotto"
